

Hello Everyone!

As we move into the summer we would like to update you on our policies and safety protocols regarding in-house and outdoor dining. We will continue to offer our take-out Meals to Go during the week, and we will be beginning brunch and dinner service on Memorial Day weekend. Five out of our six staff members (including all of our kitchen staff) are fully vaccinated and the sixth has received her first shot and will be fully vaccinated as of the first of June.

According to the updated CDC and New York State guidelines, vaccinated customers do not need to wear a mask or practice social distancing. If you or anyone in your party is not vaccinated we would ask that you continue to wear a mask and maintain 6 feet of social distance between yourself and other customers.

We hope to serve you all in the safest and best way possible and are looking forward to a fun, healthy, and delicious summer with you!
